

Using AI for producing the minutes discussion.

Maud; we should do it, it makes sense and makes it easy.

Tom; What are the benefits? What will we be using it for?

Kris; AI records minutes (from the recording) and creates a summary.

Maud; and comes up with allocated tasks.

Michael; I understand the concerns. I suggest we use Turboscribe. It is a free App which does transcription from any recording (in 30 minute bites if using the free version). You can tell it how many voices there are and it allocates voice 1, voice 2 etc.

Tom; AI breaks anonymity because it uses the recording to train AI. I am fundamentally against it's use.

Ken; I don't think anything we say hers will ever risk us or NA. It is pretty mundane (the discussion). I like the idea of using AI transcription to speed up the process of producing minutes from the meeting.

Amy; can we have three more as we are running out of time.

Mike; I am 100% in favor of using AI. It is coming to everything and we may as well just get on board.

Mike; It (AI) could save a lot of time for whoever does the minutes. Its a pain in the a..... and AI could help make it less so. I would vote for it.

AMY; lets have a vote.

For; 5

Against; 1

Abstain; 2. passed.

Literature Writing Group

Maud; The committee met last month and have given a number of people work to do. We are asking for a 6 month commitment. We are meeting again next week. Mike has made a great new flyer. (this was displayed on screen) We hope to be producing some really useful resources for secular members to use.

Kris; I am really excited about the work we are doing.

Amy; I love the flyer, we will try and make sure it gets sent out to as many groups as possible as well as being posted on the facebook group and the website.

Kris; as well as the secular NA WhatsApp group.

Podcast Idea

Mike; In the spirit of carrying the message of secular meetings of NA I would like to suggest that we create a podcast using the recorded speakers. We would need to obtain permission from the speakers for this to happen. We could use Apple or Spotify etc. need a title like Secular NA Speakers. We simply upload the recording, add a few words to describe the speaker or subject. The aim is to reach a different broader audience. We would post a new speaker each fortnight or each month.

Maud; the speakers would need to sign a waiver of some sort.

Mark; I think this is a great idea. The more people who hear these recordings the better.

CAR/NAWS Discussion Surveys

Ken; I haven't done much so far but we need to continue to promote participation in these surveys by our community. This is a really important opportunity for us to be able to influence future literature development in NA and to reduce the use of religious terminology. There are new video workshops available and somehow we need to promote awareness and the participation of groups and/or individuals.

Rushil volunteered to develop some strategies to keep this going and Kris offered to help. (Rushil is on the Website team).

Ken; there is still a post in the Featured section of the Facebook Group outlining these surveys and their importance.

Holiday Meetings

Kris; We have met (as a committee) several times and have two scheduled extra-ordinary meetings scheduled for the holidays. One Christmas night and one on New Years Eve. Mike has done an awesome flyer. Both meetings have the same zoom id and password (thanks Bob O). We have a different SPAD for each meeting. The SPADS were chosen to reflect the challenges of those days. We have a really great committee.

Amy; Thanks everyone that's awesome.
